Refills for Automatic Roll Filters or Lint or Ink Mist Collection

Cambridge Lint Mat

The automatically indexed machines are designed for control of ink mist and lint. The ink mist collectors are normally installed in newspaper press rooms and printing facilities.

The lint collection media is installed in commercial and institutional laundries, as well as in textile mills and other applications generating large amounts of cotton or synthetic lint. The media consists of a specially designed non-woven material which offers low air flow resistance, excellent durability, and high particle retention capabilities.

Replacement Rolls for Cambridge Lint Mat Equipment

Airguard Model No.	Nominal Size	Actual Width	Manufacturer's Part No.	Extra Core ⁽¹⁾ Identification
3 CB-LM	3'x450'	32-7/8"	1019851	3 CB-X
4 CB-LM	4'x450'	44-7/8"	1019852	4 CB-X
5 CB-LM	5'x450'	56-7/8"	1020242	5 CB-X

NOTE: All replacement rolls for Cambridge equipment furnished with end discs attached to core, unless otherwise specified.

⁽¹⁾ If extra core is required, use above "X" model number.
